WHY OUR BENEFITS TRULY MATTER

Dental benefits are crucial to any employee wellness program — and preventive checkups can even help with early detection of other serious health conditions. Safeguarding identity and having legal peace of mind is also essential to financial health and overall wellness.

- More than 92 million work hours are lost each year as a result of emergency or unplanned dental care.¹
- People with dental coverage are more likely to visit the dentist for preventive care than those without.²

- 53% of employees say their work was impacted due to a legal event the past 2 years.³
- 90% of identity-theft victims involved the misuse or attempted misuse of an existing account, such as a credit card or bank account.⁴
- 32% of identity-theft victims who spent six months or more fixing financial or credit problems reported severe emotional distress.⁴
